

Homework: p.231-232: 11-14 all, 24-26 all; p.238-239:8,9, 16-18 all

What other information, if any, do you need to prove the two triangles congruent by SAS? Explain.

Would you use SSS or SAS to prove the triangles congruent? If there is not enough information to prove the triangles congruent by SSS or SAS, write *not enough information*. Explain your answer.

Can you prove the triangles congruent? If so, write the congruence statement and name the postulate you would use. If not, write *not enough information* and tell what other information you would need.

p. 238-239

Name two triangles that are congruent by ASA.

See I

Determine whether the triangles must be congruent. If so, name the postulate or theorem that justifies your answer. If not, explain.
