

Practice Problems 

1. Name 4 lines that are in plane Y.
2. Name the 2 planes in the picture.
3. Name 2 lines on plane Y that appear to be parallel.
4. Name 2 lines that intersect plane Y.
5. Name 2 lines that lie in plane X.

6-10.  $\cap$  = intersection

6.  $\overleftrightarrow{EH} \cap \overleftrightarrow{CD} = \underline{\hspace{2cm}}$

7.  $\text{Plane X} \cap \text{Plane Y} = \underline{\hspace{2cm}}$

8.  $\overleftrightarrow{BD}$  is on plane                     

9.  $\overline{FH} \cap \overline{GI} = \underline{\hspace{2cm}}$

10.  $t \cap Y = \underline{\hspace{2cm}}$

11. Which plane contains  $\overleftrightarrow{ML}$ ?

12. Name 2 lines that are not coplanar.

13. Are D, G, H collinear?                      Coplanar?
