

Find the numbered angles 1 through 16.

1. Given  $a \parallel b$

$\angle 1 =$                        $\angle 5 =$

$\angle 2 =$                        $\angle 6 =$

$\angle 3 =$                        $\angle 7 =$

$\angle 4 =$

2. Given  $r \parallel s$

$\angle 8 =$

$\angle 9 =$

$\angle 10 =$

$\angle 11 =$

$\angle 12 =$

$\angle 13 =$

3. Given  $m \perp p$  and  $n \perp p$

$\angle 14 =$

$\angle 15 =$

$\angle 16 =$
