To the future Advanced Algebra 2 student,

In order to help you to be successful in Advanced Algebra 2, the Ponderosa Math Department is asking you to complete four worksheets over summer break, **during the two weeks prior to school starting in August**. The four worksheets and solutions can be found on the Ponderosa math website at [www.phsmath.info](http://www.phsmath.info), under Advanced Algebra 2, titled Summer Work or <http://phsmath.startlogic.com/Spring/Documents/advalg2/summerwork/advalg2SW.htm>.

This work is a review of Algebra 1 skills that are essential for success in Advanced Algebra 2. In addition, there are links to videos to help you review these skills on this site.

If school opens as “normal”, the first week of school you will be taking a quiz on these math skills. You will be required to get 9 out of 12 correct in order to stay in Advanced Algebra 2. If you are not successful on your first try, you will be given the opportunity to retake a similar quiz until you are considered proficient in these skills. You have until the end of the second week of school to pass this quiz, taking a maximum of three attempts. If you have not passed it by the end of the second week, then we will request a course change for you. Keep in mind that a schedule change from Advanced Algebra 2 to regular Algebra 2 can also result in changes to your schedule in other subject areas as well. If you need help after taking the first attempt, please see your Advanced Algebra 2 teacher for available help times.

If school does not open as “normal”, you will receive communication from your Advanced Algebra 2 teacher about how you will be assessed on your knowledge of these essential skills.

Sincerely,

Ponderosa Math Department
